CSE141L Lab - Final Project (And Vectors)

Name: _____

Student ID: _____

Instructions

- Complete this worksheet while reading/working through the lab write up. The worksheet doesn't make sense without the lab.

- The point values are listed for each question. Altering the size of the cells will cost you 1 point. There are 22 points total for the write up portion of the lab.

P1 (10pt) Give a brief description of which functions you added more optimizations to and why. Report the speedup you achieved for each one. Which function had the greatest effect on train_model()?

Your answer here

P2 (10pt) Give a description of the optimizations you implemented to speedup training for each of the individual functions. The answer should give us a fair understanding of your optimizations without looking at your code.

Your answer here

Describe What you Did

(2pt) Which optimizations gave you the maximum speedup over all the functions?

```
    Your answer here
```

Lab Reflection

Follow this link 24 hours before or after the due date to fill out the reflection survey. It is worth 5% of your lab grade.
